

DMIT1530 In-class Assessment Background Images

2016/2017 Winter Semester.

Due: Before the end of class

Weight: 5% of your final grade

Introduction

Download the files provided by your instructor. You must utilize the provided HTML (i.e. the HTML should not be modified). You are tasked with adding the CSS styles necessary to position and size the images to match the provided screen shot as closely as possible (note, your screen may appear different depending on screen size). Take a look at the 2 images underneath the wireframe to see how the same solution looks different on different sized monitor windows.

The Build Methodology

1. Add main background image and verify it covers entire screen no matter the screen size (try zooming in and out).
2. Add each image one at a time and verify size and position.
3. Ensure a hover style is added to the book now button
4. Validate and repair any deficiencies.
5. Demonstrate the completed web page to your instructor.

Marking Key: Assessment Two

MARKS	CRITERIA
5	Task was completed with the highest of proficiency adhering to best practices and followed subject matter guidelines all tasks were completed to a professional standard.
4	Task was completed well some minor mistakes. Well above average work shows good understanding of the task and high degree of competence
